Re: Re-design of Online Module for HCINNOV 7780: Evidence-Based Practice for Innovation in Organizations

Thank you for the extensive and engaging redesign of Module 1 in HCINNOV 7780: Evidence-Based Practice for Innovation in Organizations in the Masters of Healthcare Innovation (MHI) Program at the College of Nursing. I will be sharing your recommendations with the MHI leadership team, the faculty in the program, and college faculty to who teach EBP courses.

The new module format, condensed lecture series, and interactive PICOT game will lead to increased in engagement with our students. [Your analysis tools \(PEST, SWOTI\) provided rich data from which to better understand the working environment of team leaders and gave us great insight on our students' preferences. Your final report was very well done and we compliment you on its professional presentation.](#)

I very much appreciate the time and effort you spent assisting our organization. I also appreciated the opportunity to get to know all of you and to collaborate with ESETEC 8295 - Applied Instructional Design, Spring 2017 and Ana-Paula Correia. We look forward to future collaborations.

Many thanks and be curious,

THE OHIO STATE UNIVERSITY

Tim Raderstorf MSN RN
